

Town hires Firm to Research Amalgamation Question

The firm of Underwood, McElliott and Associates has been hired to investigate all aspects of St. Albert's position should an amalgamation with Edmonton take place. Council met with representatives of the firm on Monday night to discuss terms of under which they will operate. The projects is to be a fact-finding one and the firm will not be asked to make any recommendations. They are hopeful they can provide council with their report by the end of September and will supply progress reports as they go along. Approximate cost will be \$3,000.

Council held lengthy discussion of Councillor Bakker's proposed 4-question plebiscite on Monday night. The feeling was general that as far as two of the questions proposed in Bakker's motion, ("Do you favor amalgamation of St. Albert's school districts with Edmonton's districts?" and "Do you favor, in case there is no amalgamation with Edmonton, an amalgamation of the two St. Albert's school districts?") these were not a council function. The May-

or was requested to arrange a meeting with the two school boards and a motion on the wording of the plebiscite was tabled until August 26th.

Work will go forward immediately on the sidewalk construction abutting on the north side of St. Michael Street from 90 feet west of Perron Street to Edmonton Street. A petition signed by four of seven property owners on the south side of the street means that the sidewalk will not be constructed on that side.

Approval in principle has been granted to Alcan Design Homes Ltd., for a development in the East Braeside area and the firm is planning to begin work on an initial 100 homes this fall.

Eight applications were received from local residents interested in serving on a commercial and industrial development committee for St. Albert. A committee of five men have been appointed: E. Robinson of 9 Gresham, Robert Russell of 37 Glenmore, J. E. Ellsford of 10 Gordon, Kenneth MacGregor of 21 Gordon and Mr. Neil Ross

of St. Albert Road. Mr. Ross's appointment was recommended by the Chamber of Commerce. The prime objective of the committee as stated in Council minutes is to recommend policy on (1) preparation of an information brochure, (2) establishment of industrial parks in St. Albert and (3) the attraction of commercial development.

An application for a permanent trailer park in St. Albert was turned down by Council, who met again on Tuesday evening to complete business not done Monday night due to the more than two hours devoted to the discussions on amalgamation plebiscite.

Council approved a motion that the St. Albert Curling Club be granted a twelve month lease on the upstairs waiting room facility which the club is presently proceeding with. This room will be offered for rentals during the off-season months. Formerly the curling lease ran from September 15th, which remains in effect for the ice area and downstairs waiting room.

The purchase of an overhead projector of \$400 was okayed, for use in projecting maps and charts under consideration in Council deliberations. A map case will also be installed at about \$350.

Circus Arrives Friday

Last call for Advance Tickets

The big circus will arrive about daybreak on Friday to get set up and ready for the first performance at 2:30. Everyone is invited to go down to the arena (south of the Klondike Inn and across the road from Jasper Auto Parts) to watch the activity and feeding of the animals.

Advance tickets at a saving of 25¢ will be available until 9:00 p.m. Thursday at Hutchings Shoes, Safeway and Jim Byrne's Store in Grandin Shoppers Park or from the Gazette office until 6 p.m. All members of the Lions Club have tickets, but these must be picked up before 6 on Thursday.

This is a real old-fashioned

travelling type circus which presents its performance in four Rings in a big tent, making every seat a ring-side seat in the European style.

The circus advertises the only travelling zoo and menagerie on tour anywhere in America or Canada today with any circus which includes scores of rare wild animals including the largest hippo in captivity, rhinos, zebras, camels, bears, wild jungle cats, apes, monkeys, etc., plus the gigantic herd of performing elephants starring "Joske", the largest elephant on the North American continent.

CONTINUED ON PAGE 3

Lion Park Chairman Roland Scharfe and a crew of volunteer Lions got busy with a number of old tractor tires and a good idea. Work on cementing these into the ground is not yet completed, but obviously it is due to meet with the approval of the small fry. That's Domini Christian of 30 Balmoral perched on top of the tire at left and her brother John peeking out below. Astride the other tire is Bernard Roy of 13 Mill Drive. Gazette photographer caught the action yesterday morning.

Visiting students here next week

The Young Voyageurs from our town returned from a very pleasant seven days in the Chicoutimi region of Quebec. They are now awaiting the arrival of a Young Voyageur group from Sydney Nova Scotia. These Young Voyageurs will arrive at the Grandin Shopping Centre on the afternoon of August 19. One of the numerous activities planned for the visiting Voyageurs is a dance to be held in the St. Albert High School gymnasium, the evening of Saturday, August 24, from 9 to 11 o'clock. The music will be by the Patchwork Kwilt and the admission is \$2.25 per person. The dance is closed, but each student from Paul Kane High and St. Albert High can bring one guest not attending either school. All the high school students in town are invited to come to the dance with a guest to meet the Young Voyageurs from Nova Scotia.

Board secures land option

The Board of St. Albert School District No. 3 is pleased to announce that it has been able to secure an option to purchase 10 acres of land in the Forest Lawn Subdivision to be used for future school sites.

The buying of land for sites continues to be one of the most difficult problems with which School Boards must contend. It is vital that raw land be purchased as the cost immediately spirals after sub-division occurs. The present option calls for \$2250, per acre. Less than two months after the agreement was finalized 430 acres of adjacent land was bought at \$2750, per acre. The Board is aware that the resale by the developer will likely be at least twice as much as the purchase price.

There is a major development now underway in the Forest Lawn Sub-division on the east side of Sturgeon Heights. This means that classroom space must be provided in the very near future.

If a site is purchased now, the debenture payments can be met by less than one-half mill. If we wait, at least a full mill will be required.

David Fraser

Chairman of Board.

An attempt is being made to organize a bowling league for airforce wives living in St. Albert, who are some distance from the facilities at Nanaimo and would enjoy this local activity. Interested women are invited to telephone Mrs. Lynch at 599-8977.

Grade 12 results extremely good

Grade 12 examination results at St. Albert High showed 88.2 per cent achieved university entrance, a very fine performance. 7.5 per cent of these were honor standings, 35.5 per cent achieved A standings and 42.2 per cent made B standing.

18 per cent of the 161 papers written received C standings and there was only one failed paper (0.6%). BREAKDOWN IS AS FOLLOWS:

SUBJECT	PAPERS	H	A	B	C	D
English 30	28	1	10	13	4	-
English 33	24	-	10	12	1	1
Social Studies 30	27	1	9	12	5	-
Mathematics 30	19	-	12	7	-	-
Physics 30	8	2	2	4	-	-
Chemistry 30	16	2	6	8	-	-
Biology 30	20	-	3	10	7	-
French 30	19	6	10	2	1	-
	161	12	62	68	18	1

Results at Paul Kane were also excellent. 84% of the 256 papers written were awarded matriculation or university entrance standings (marks ranging between B-H). The provincial average in matriculation standings is between 60-65%, 10% of these were honor standings and the provincial average is about 5%. There were only three failed papers and 39 papers rated C standing. Figures for the 256 papers written show 26 with honors, 90 received A's, 98 were B's, 39 received C and three were D's. This is one per cent fails and the provincial average is 15% failed papers.

Dainty little 98-pound Anna Lee puts over 35 tons of elephants through their paces when the huge herd of elephants performs with the Carson & Barnes Combined European-Style 4-Ring Circus coming to St. Albert for 2 performances on Friday, August 16th at the Circus grounds located across from Jasper Auto Parts and next to the Klondike Inn. Carson & Barnes 6 performing elephants will lead the long list of trained animal acts highlighting the two-hour performance which is sure to thrill and please young and old alike. Carson & Barnes is the first American Circus to present its big performance in 4 Rings, making every seat a ring side seat, European Style. As a special added attraction Carson & Barnes Circus is presenting, direct from the CBS Network, that colorful CBS-TV star, Kirby "Sky King" Grant, who will make two appearances at each performance.

Letter to the Editor

Action suggested on arena

Dear Sir:

Mayor Fowler, at the annual minor hockey banquet in the spring, hurled a challenge to organizations and members of the community at large to take up the fight for an arena.

It was about the only move he had left. The ratepayers a year and a half before had voted in favor of a money bill that put \$75,000, toward an arena and \$50,000 toward a swimming pool. The swimming pool went up, at a cost of about \$25,000, more than was estimated, but when the mayor put his hand out to the ratepayers for an extra \$50,000 for the arena, they turned thumbs down in no uncertain terms.

Well, the mayor had the \$75,000 and he was not about to give it up. It was earmarked for an arena it would remain.

"You can have the \$75,000 for starters," Mayor

Fowler told his audience, which included about 200 young hockey players, their dads and officials of many sponsoring organizations, "Who will take it from here?"

Apparently nobody. At any rate, I haven't seen any takers mentioned in these pages or heard of any in local scuttlebutt. So I think it's time we faced some hard facts.

The ratepayers say the town can't build an arena, and if you've checked your last tax notice, it's impossible to put the knock on them for it. And there isn't an organization in town big enough to take on such a venture on its own.

But isn't there an obvious move here? Couldn't they pool their resources? And I mean all organizations, not just the Klansmen, Knights of Columbus, Lions, etc., but the Chamber of Commerce, Fire Department, Air Cadets, Boy Scouts, anything that moves. One big effort, let's face it. It would be a first for St. Albert, a town where pessimism seems to be a status symbol and the key line seems to be "nothing's ever organized".

It's not as if it is a job that requires starting from scratch. The pot already has \$75,000, in it. It just needs to be sweetened up a little. I believe two words, if they are taken up by this community, can provide the finishing touches. Co-oper-

ation. Volunteer.

There will be many who have gone through a volunteer program who will shudder. "It's a long, hard road" they'll mutter, "almost an impossible one". Grafted. But ask them this question. Did they get what they were after. You'll seldom find a no. The road may have been long. It may have been hard. But somewhere, deep within the community, the strength was found to travel it to completion.

I'd like to present a plan of how I think it could be done. It might not be acceptable, but if it at least breeds a little thought, it will have accomplished something.

The first move would be for some organization to call a public meeting, attempting to have as many delegates as possible from the various organizations in town and a good representation from the general public. From this meeting a committee would be formed to approach the organizations on their own ground to seek support and have the way for the forming of a general committee.

The general committee would be the governing body for the project. It would be formed of delegates from organizations supporting the project and members of the public at large.

Out of this committee would emerge a general chairman whose job it would be to oversee the entire project; a finance chairman, who would be responsible for the raising of funds and a manpower chairman, who would be responsible for volunteer labor.

The committee would hire a superintendent on a one-year contract. He would be the only paid member of the project. He would be responsible for the actual construction, reporting to the general committee. This is a paid position because it is a full-time one. If we are going to do this thing, let's do it right. In the long run, it will probably mean money in the bank. And there are men in this community who have the background and who are interested enough in this as a community project to take the job.

The finance chairman would have a complete organization under him. He would have several sub-chairmen and they in turn would have several foremen, the men in charge of the teams who would actually conduct the fund raising projects in the field. The same set-up, designed so as not to throw too heavy a burden on one man, would also hold true in manpower. The chairman would have several sub-chairmen, who in turn would have several foremen, the men in charge of the work crews that would erect the building.

The manpower system would work on the pledge system used mainly in fund raising. Instead of dollars, man hours of labour would be pledged. Work crews would be broken down into

Around Town

Vince Maloney came up with low score in the qualifying round played Sunday for the Sturgeon Valley Golf championship. Vince scored a 41 and 42 for a total of 83 and was awarded the prize of one dozen golf balls. Matches in the championship playdowns will be played over the next few weeks.

In the coming events department mark your calendars for the Legion Initiative Night being held September 7th at the St. Albert Community Hall, and for the Tennis Club dance on Friday the 13th (of September that is). Tickets for the tennis dance are available from Floyd Maybee or Jack Harding.

Young or older people suffering from a twinge of conscience or experiencing the urge to do a good turn would be welcome at two community sites. We suggest the teenagers try the Sanctum and take along a paint brush. Fathers would be most welcome at the new Art Centre Saturday morning or afternoon where work is going forward on the building to house the Creative School Kindergarten and the Arts and Craft Guild.

Mr. and Mrs. T. R. Paul and family of Gordon Crescent have recently returned from a vacation in the Rockies and Okanagan Valley. Going via the Rogers Pass,

skilled and unskilled. Schedules would be set up to provide a constant flow of labor without asking too much of any crew. It would be the sub-chairman's job to keep the work crews filled by drawing from their pledge lists.

It's too late to provide an arena for this winter, but it certainly isn't too early to think about providing one for the snows of 1969-70.

Douglas Millroy,
65 Sunset Blvd.

(IN CHAIRMAN RESPECT FIRM)

they had a camping trip and apart from one cold night in the mountains reported ideal weather for this kind of a holiday.

Mr. and Mrs. L. J. Siega of Grandville Avenue are enjoying a visit with Mrs. Siega's mother, Mrs. A. D. Hensworth of Halifax, Nova Scotia and her niece Miss Susan Payne of Peterborough, Ontario.

Mrs. June Kendel of the Welcome Wagon service is away on holidays until the 25th of August and Muriel Drake is making calls during this time.

*** **

Robert E. Miller, 7 Gilmore Crescent, St. Albert, Alberta, receiving the M.S. degree in education, was among 6,200 graduates from the Indianapolis and Bloomington Campuses of Indiana University who received degrees June 10th at the University's 139th Commencement program at Bloomington. The candidates for bachelor, master, and doctoral degrees included those who completed requirements sometime during the 1967-68 school year. No summer graduates were listed.

Welcome

Wagon

Welcome to St. Albert, Mr. and Mrs. Sydney Moore and family; Mr. and Mrs. William Garrison and family; Mr. and Mrs. Kenneth Gunn and family; Mr. and Mrs. Mike Tomash and family; Mr. and Mrs. Lylle Purdon and family; Mr. and Mrs. Gordon Melndoe and family; Mr. and Mrs. James Rae and family; all of the Grandin Park area. Mr. and Mrs. Ralph Davidson and family of the Sturgeon Heights district.

FLUORIDATED WATER

Plebscites on fluoridated water indicate that more than half of all Canadians don't want it. But more than six million now drink it. About a third of Canadians now drink fluoridated water. In 1967 the percentage increased to 31% — up from 26% in the previous year. "During 1967, more than one million more Canadians came under the benefits of fluoridation, bringing the total to 6.2 million. These persons live in 459 communities served by 446 piped drinking water supplies," the Canadian Dental Assoc., says. Manitoba, with 62% of coverage, leads the rest of Canada with the chemical in the water.

CARD OF THANKS

We would like to extend our thanks to the Welcome Wagon and the business people of St. Albert who make possible their friendly visit and kind gifts. As newcomers to St. Albert we appreciated this service very much.

Mr. and Mrs. Nick Muzichuk and family.

Appointments - Library Board

Due to a change in the Libraries Act and the resignation of two board members there are three vacancies on the St. Albert Library Board.

Under the provisions of the Libraries Act appointments to the Library Board are made by council.

Written submissions from persons expressing an interest in serving on the Library Board are hereby solicited in order to assist council in filling the vacancies.

Written submissions will be received by the undersigned until 5:00 p.m., Monday, August 19, 1968 and will be considered by council after that date.

J. M. Fleming,
Secretary-Treasurer,
Town of St. Albert.

the Gazette REFLECTS

We expect the majority of St. Albert residents will be reserving final judgement on the pros and cons of amalgamation with Edmonton until they see the report of the research officer being hired to investigate all aspects of the question. We too would like to see the report before making a firm decision.

However, in the two short years we have been in St. Albert, some advantages in remaining a separate town seem to us worthy of serious consideration.

We believe our two school boards are able to provide better standards of education and attract a higher calibre of administrators and teaching personnel than is possible in the city systems. Interested persons could pursue this idea by talking with one or more of their school trustees. As for costs of education these are causing alarm throughout the province and Edmonton is no exception.

We observed what happened in St. Albert this spring when upwards of 350 young boys registered for soccer and a group of dedicated volunteer residents, with whole-hearted support from the town recreation department, worked untold hours of overtime to get playing fields ready, equipment purchased and the many new coaches lined up. The result was that every boy who registered got to play soccer and the business community came through with extra help so that every team got uniforms. Somehow we doubt very much that this would have happened under amalgamation. In fact the whole question of both costs and quality of family recreation of all sorts should be considered in making a decision on amalgamating. We suggest that this is a cost comparison to make with city dwellers, along with taxation costs, before making up our minds.

It seems to us also that Edmonton is presently entering a period when their taxation level is liable to increase a great deal more rapidly than heretofore. Plans for rapid transit systems, freeways, new bridges over the river, domed stadium complexes, urban renewal and so on involve gigantic sums. It would be folly to think taxes in Edmonton are not going to steadily increase. On the other hand, St. Albert has already experienced a period of very rapid expansion which has now levelled off. Our council has been able to hold the line on municipal mill rates and it would appear they can continue to do so for some time without any serious effect on community services.

An intangible factor, but one that seems to us important, is the matter of how far we are prepared to go in pulling up the grass roots of our society. Do we keep on and on with this till we are all reduced to a social security number with computers more or less running our lives? Until the voice of the individual is no longer heard in our land? Is the dollar so far ahead of any other goal that we will listen to any amount of persuasion that the bigger an operation gets the more efficient it becomes, and therefore the more money we save? Is this principle really true of everything from a supermarket food chain to big government? Or should the little ordinary Joe start applying some brakes.

New principal named

Mr. Ross Johnston has been appointed to the position of principal of St. Albert High School.

Mr. Johnston joined the staff of St. Albert High School in September 1965. He took leave of absence during the 1967-68 school year to continue his studies and he now has his Master's Degree in Education.

He was married in April

Councillors Frank Luckay and John de Bruijn will represent the Town of St. Albert at the official opening ceremonies being held next Monday in Redwater for the new Imperial Oil Fertilizer Plant.

Farmers need a good first aid kit, and it's a good idea to go through it once in a while to make sure the medicines are up to strength and that it contains the needed equipment.

St. Albert

Recreation News

ARTS CENTRE

The new Arts Centre in Salsbury Park is progressing satisfactorily and every Saturday the building fairly hums with activity. However more volunteer help is urgently required if the building is going to be completed in time for all the Fall and Winter activities which are being planned. Many of these activities involve the children. So parents, do lend a hand and make this centre a real community project.

If you can hammer a nail or wield a paintbrush, go along to the building in Salsbury Park any Saturday from 8:30 a.m. A few dedicated men have been spending their Saturdays this way for several weeks but they need help - YOUR HELP - and the more help they get the sooner the Arts Centre will be completed. So for your own sake and the sake of your children do try and contribute just a few hours of your time. If you can't

make it in the morning, come in the afternoon - the welcome mat will be out anyway.

CRAFTS

The hundreds of people, young and old, who visited the government - sponsored Crafts Trailer when it was in St. Albert recently, indicate a tremendous interest in crafts on the part of our local residents.

If you are interested in taking up any of the crafts you saw displayed in the trailer - or anywhere else do let us know and it may be possible to arrange classes. Phone the department of parks and recreation at 599-6601.

MEN'S SOCCER

The new schedule for the next series of league games has not yet been issued. In the meantime the St. Albert Men's Soccer team continue to practise, in order to maintain the high standard they attained during the past season.

Swimmers enter first meet

On Sunday, August 17, members of the St. Albert Swim Club will travel to Vegreville to take part in their first swim meet. There they will be competing against seven teams from other towns. According to Bernice Lattimer who coaches the local team, we have some very promising young swimmers in St. Albert. The good wishes of the town go with the club on their first venture into the competitive swimming field.

A public swimming session will be held from 10:30 a.m. to noon on week-days from now until August 23. A slight adjustment is being made in the evening schedule at the pool. Because of low attendance at family swimming, this session will be restricted to one hour, from 6 - 7 p.m., and public swimming will be from 7 - 9:30 p.m. These arrangements will be in effect from Thursday, August 15.

In the mile swim held on Sunday, August 11, Bill Clark won a Silver Award (30 - 35 minutes), Pamela Boulter and Debbie Savoy gained Bronze Awards (35 - 40 minutes), while David Kamra and Sheryl Boulter completed the course within the allotted time of 45 minutes. Registrations are now being taken at the pool for the mile swim being held on August 18 and 25. There must be some adults in St. Albert who would like to have a shot at swimming the mile. So don't just sit on the bleachers; get in there and swim and show the youngsters that they are not the only ones who have the necessary stamina to swim a mile.

The St. Albert Junior Waterpolo team placed third in the Edmonton and District

from a dizzy height near the top dome, acrobatic stars and gorgeous "Big Top Starlets" performing in mid-air ballet fantasies. A toning-out of hilarious clowns is also provided.

Novelty tourney draws fans

On Sunday afternoon, the tennis club had another novelty mixed doubles tournament and this was extremely well attended. The eventual winners were Mita Wildan and Greg Doble.

With the return of some good weather, the tennis club was able to catch up on some activities and there has been a busy week.

The senior inter-club matches against the Royal Glenora Club ended in a three all tie and there is one remaining match against Fort Saskatchewan to be played. With some luck, we should be able to secure a berth in the play-offs for the Brower Shield.

In junior inter-club matches, St. Albert won five and lost five to Coronation. Several of our juniors are entered in tournaments and at the Coronation Open Jun-

ior Tournament Bernice and Roberta Parsons won the under 18 doubles against some experienced and capable opponents - Myles Pratt and Peter Stanley reached the finals in the boys under twelve section and Linda Wauch and Sheila Dalphond reached the final of the girls under fourteen doubles before being narrowly beaten 9-8.

Bernice Parsons, Roberta Parsons, Phillip Parsons and Danny Soprovich are playing their first games in the Edmonton Junior City Tournament at Victoria Composite High School.

The annual tennis club dance will be held at the Club Moombo on Friday, September 13th. The tickets are now available from Floyd Maybes, 36 Grosvenor Blvd., or Jack Harding at 96 Grandin Road.

Grandin Park Cleaners

Dear Resident :

After two months of operation in the Town of St. Albert, we feel that we have proven our ability as professional dry cleaners. And to some extent we feel we know the requirements of our customers.

Have We Forgotten Anything ?

This is the question we have asked ourselves - and the question we now ask you. If you feel we could improve our dry cleaning service in any way, please do not hesitate to call us. If by any chance you did not know that St. Albert Cleaners no longer exists, we take this opportunity to tell you that, as well as a change in name, you now have new management, some new machinery, with more to come and improved customer service. We have a new repair and alteration department, an improved shirt service and free pick-up and delivery service. This complete clothes care service is no further away than your telephone.

If you have not yet tried Grandin Park Cleaners, we extend this invitation to do so. If you are a regular customer, then we thank you for your support. It has been a pleasure serving you.

Shoes and feet

by J. M. Howell,
Medical Officer of Health
SHOES AND FEET

When buying a child's shoe future foot health is not the only consideration: children are as particular about styling as adults and rightly so. But as that first foot is stuck out for the assistant to measure, a design of shoe which is correct for the shape and functioning of the foot will be foremost in mind.

The human foot has two important jobs to do. It acts as a platform on which to bear the entire weight of the body. The ideal shape for this function would be a large, flat and supple foot.

Second, it acts as a lever, pivoting on the ball of the foot, to propel the body as it takes off in walking or running. The lifting capability is the calf muscle, acting through the Achilles tendon.

Now the ideal lever must be a rigid structure and any engineer would tell you that, in order to bear a heavy load, this lever would have to be shaped like an arch. So the two functions of the foot are, to some extent, in conflict. The large, flat foot in contact with the ground has to be transformed into an arched lever just before take-off. There is one more point. Another arch is shaped across the ball of the foot so that, when the foot is at rest, the weight is taken on the inner and outer edges; during take-off the arch flattens and all five bones come into contact with the ground. At this time the toes do their bit, which consists of pressing into the ground and thus both relieving the strain on the forefoot and preventing slipping.

The arches of the foot are made by the bones of them in all and maintained by the ligaments which become strained and painful if they had to do this job alone. The essential sup-

port is provided by muscles, the long calf muscles which form a sling under the arch and hold it up; and the short foot muscles which tie together the two pillars of the long arch.

Why do we need shoes at all? Obviously to protect our feet from injury and cold but also because civilization demands we use our feet for a purpose for which they were imperfectly designed, namely prolonged standing. To maintain the long arch of the foot during standing, the calf muscles have to pull upwards continuously and without the natural, brief rest periods they get with each step in walking. Standing then is, in this sense, harder work than moving about!

A GOOD SHOE

The part of the foot most needing support is the long arch. So the shank of the shoe must be strong and firmly welded to the heel. The weight of the body should be transmitted vertically down through the heel; a sloping heel allows the foot to slide forward. Wedge heels tend to lack resiliency and are therefore bad for the muscles.

Heels should be neither too low (this strains the long arch) nor too high (this throws the foot forward). One to one and one half inches is the best. Other heights should be reserved for short periods. Runners and similar foot-wear are fine for periods of activity but not for standing around. If high heels are worn continuously the calf muscles shorten.

Here are some good features to look for. On bending the shoe it should give opposite the ball of the forefoot, never at the junction of the heel and shank. Fitting of the back of the upper around the heel is important, especially in the

long, narrow foot, so prone to ankle weakness. The inner borders of shoes should be almost straight.

In toddlers, the foot is more triangular and the heel narrow in comparison to the forefoot. The shape of the foot climbs steeply from the base of the toes to the ankle and the heel juts more sharply backwards. Special check points are the depth and the flatness of the forefoot, giving the toes plenty of room to exercise and grip the floor.

Now what about fitting? Measurements which can be taken are the length (while the child is standing), width and girth. Good fitting around the waist is evidenced by the absence of creaking of the leather. Heel grip and heel-to-ball fitting are important. A lot can be learned by inspection of the old shoes and of the child's feet for those tell-tale red pressure spots (not to mention the early outward deviation of the big toes which signifies impending bunions).

If you can help it, never pass on shoes, even within the family. It is not possible to get a good fit with a shoe which has already moulded itself to another foot. And don't forget small socks can be as dangerous as small shoes.

Priest conducts service for brother's wedding

Banked with white gladiolus and daisies in sunburst design, the altar at St. Joseph's Cathedral was the background for the recent wedding of Miss Jeanne Morrisette and Mr. Joseph Laplante. Rev. Richard Laplante, brother of the groom, performed the double ring ceremony for the daughter of Mr. and Mrs. Olivier Morrisette of Edmonton and the son of Mr. and Mrs. Emile Laplante of Edmonton.

The beautiful bride, given in marriage by her father, chose a floor length gown, lined with tulle and crepe designed with pearls and enhanced by a cathedral train. Her silk illusion shoulder length veil was held in place by a cluster of roses. White miniature carnations formed her bouquet.

Bridal attendants were the bride's twin sister, Miss Jacqueline Morrisette and Mrs. Therese Morin. They chose floor-length gowns of blue woven crepe featuring empire waistlines and short sleeves. Complementing their ensembles were headpieces and bouquets of shasta daisies.

The groom's attendants were the groom's cousin, Mr. Richard St. Arnaud and Mr. Theodore Deloog. Mr. David Ward and Mr. Marcel Landry ushered the guests. Wedding music was played by Dr. Crighton and solos were rendered by Mr. Denis Labonte.

For her daughter's wedding, Mrs. Morrisette chose a pale pink linen coat and dress ensemble complemented by white accessories and pink roses on corsages.

The groom's mother, Mrs. Laplante wore a champagne puffed brocade suit with turquoise accessories and her

FRESH BLUEBERRY MUFFINS

Wash 1 cup fresh blueberries. Drain on absorbent paper. Sift together 2 cups flour, 1/4 cup sugar, 3 teaspoons baking powder and 1 teaspoon salt into a mixing bowl. Beat 1 egg slightly; mix in 1 cup milk and 6 tablespoons salad oil. Make a well in centre of dry ingredients; pour in milk mixture. Stir quickly just until dry ingredients are moistened. Quickly stir in blueberries. Turn batter into well-greased 2-1/4 muffin cups. (Cups should be 2/3 full). Bake in 425 F. oven for 25 minutes. Remove muffins from cups while hot. Makes about 14 muffins.

David Thompson highway opens

A more magnificent setting for an open-air Church service would be hard to find than this one, selected for the Sunday morning worship by participants in the David Thompson Highway Cavalcade.

Photo by Jasperse.

Members of the Wetaskiwin Chamber of Commerce again joined with other Central Alberta Chambers in the David Thompson Highway Cavalcade, held this year on August 3, 4 and 5th. It was the tenth anniversary of the first Chamber Cavalcade and a most important anniversary, since it marked the official opening of the high-

way by the Hon. Gordon Taylor. The opening ceremony was held at 3 p.m., August 3rd, followed by a film showing and musical entertainment.

The dream of central Albertans for a highway connecting the Banff-Jasper road began 37 years ago and the first historical journey over the route involved five

days of travel to go from Rocky Mountain House to Nordegg. A group of hardy people persisted in their goal of keeping the proposed road in the public eye and at intervals promoted cavalcades, until in 1958 the Central Chambers of Commerce took up the Cavalcade and made it an annual promotion. Ten years later all these efforts paid off, with the opening of the highway.

The highway route is among the most scenic in Canada and as well as many beautiful views, it offers a number of historically interesting stops.

Vimy girl showered

VIMY - On August 6th the Vimy Community Hall was the scene of a miscellaneous shower honouring Miss Madeleine Sabourin.

Seated at the head table accompanying the bride-to-be were her mother, Mrs. J. Sabourin, Mrs. F. Coles and her bridesmaids Misses Suzanne Tieulle, Paulette and Madeleine Sabourin.

For her shower, Madeleine chose a light blue nylon weave shirt dress complimented by a corsage of pink roses.

The evening of fun and games was followed by opening of the gifts. Madeleine then thanked everyone for the lovely gifts and good wishes. Special thanks were extended to the bridesmaids who organized such a lovely evening in her honor. Mrs. Karl Hanes from Los Angeles, California, also attended her niece's shower.

A delicious lunch was served to complete the evening. Madeleine is the bride-elect of Mr. Jean Louis Tieulle from Legal. The wedding will take place at Our Lady of Victories Church, Vimy on August 17th.

Canadians ate an average of 15.8 pounds of poultry meat each in 1949 and 39.6 pounds in 1966, says CDA's "Value for Food Dollars" publication.

CDA's crop insurance scheme with the provinces covered \$91 million worth of crops in 1967 and paid \$3.8 million in claims.

Questions on chinchillas

The Canada Department of Agriculture today cautioned against get-rich-quick schemes involving chinchillas.

Promotion material has described the profit potential of chinchilla raising in glowing terms. As a result, many people have turned to the department for information. In reply, the CDA makes these points:

1) Raising chinchillas for profit is no job for the amateur, it calls for a high degree of skill and experience. The successful breeder must have a sound understanding of his animal's habits and needs, as well as a thorough knowledge of the desirable characteristics of breeding stock.

Proper preparation of pelts and other marketing skills are also essential.

2) It is difficult to rear chinchillas on a commercial scale in basements, garages or other makeshift accommodations. In other words, large profits from the sale of pelts are unlikely while operating under such conditions.

3) Statements to the effect that females will produce five or six kits each year are open to serious question. The national average is between two and three kits from each breeding female.

4) According to DBS figures, the net average price (that is sales price, less dressing and selling charges) realized for a chinchilla pelt was \$13.17 in 1965. The net average in the five years, 1961-1965, was \$13.55. Good quality breeding animals usually cost the commercial producer from \$100, to \$150, a piece.

5) There is no officially recognized grading system for live chinchillas. Grades such as "Triple A", "AA" and so on are simply scoring methods used by individual breeders.

6) Persons who wish to learn more about the chinchilla business should write to the National Chinchilla Breeders of Canada, P. O. Box 640, Carleton Place, Ontario.

SCHOLARSHIPS

OTTAWA - Forty-nine scholarships have been awarded by the Department of Indian Affairs to outstanding Indian Students across Canada to help them continue their education. "The scholarships were awarded on the basis of the student's past achievements and his desire and ability to continue in his chosen field". They ranged from \$100 to \$300.

A battery-powered go-anywhere videotape recorder weighing only 13 lb. has been introduced in Canada. One use: real-estate customers can see a house without having to visit it.

Merci - Thank you

The Fete au Village Committee wishes to thank all those who contributed to make Fete au Village 1968 a great success. The splendid co-operation of the people of the Community of Legal was indeed gratifying. Our sincere thanks to the many visitors who attended our Fete au Village; we look forward to seeing you next year.

Fete au Village Committee

Public Notice

St. Albert School District No. 3

BY-LAW No. 10

By the Board of Trustees of the St. Albert School District No. 3, of the Province of Alberta,

WHEREAS it is deemed expedient by the Board of Trustees of the St. Albert School District No. 3, of the Province of Alberta, that the sum of TWENTY TWO THOUSAND, FIVE HUNDRED DOLLARS should be borrowed on the security of the said District by the issue of Debentures repayable to the bearer in Twenty-Five consecutive annual instalments with interest at the rate of not more than eight per centum per annum for the following purposes, namely:

For the purchase of 10 acres of land in the Forest Lawn Sub Division; Town of St. Albert, for a future school site.

THEREFORE, notice is hereby given by the Board of the said School District that unless a poll of the proprietary electors of the said School District for and against the said debenture loan is demanded as provided by The School Act, the said Board will apply to the Local Authorities Board for authority to borrow the said sum by debentures.

Of which all persons interested are hereby notified, and they are required to govern themselves accordingly.

DAVE B. FRASER
CHAIRMAN

Dated at St. Albert, this 6th day of August, 1968.

INSTRUCTIONS TO PROPRIETARY ELECTORS IN A SCHOOL DISTRICT

1. A poll of the proprietary electors for and against the by-law may be demanded within fifteen days after the date of the posting of the last publication of this notice, the demand for a poll shall be in such form as is prescribed by the Minister and shall be signed.

a) In a district other than a city district, by fifty proprietary electors or by five per cent of the proprietary electors, whichever is the lesser number.

b) In a city district, by one thousand proprietary electors or by five per cent of the proprietary electors, whichever is the lesser number.

2. The demand for a poll should be delivered to the secretary of the district or, in his absence, to the chairman of the board of trustees. A certified copy of the demand should be transmitted forthwith

3. Proprietary elector means any elector, who is liable to assessment and taxation for school purposes in respect of property situated in the district.

Large vote favours retaining Saskatchewan school district

Chairman George Wilson has been in charge of negotiating arrangements for school attendance in the Saskatchewan School District on behalf of the Sturgeon Divisional Board. The issue was resolved Monday night when voters of the area gave solid support to the Board's proposals.

An excellent representation of ratepayers attended the meeting held Monday evening in the Parish Community Hall in Lamoureux and gave their overwhelming support in favor of retaining the Saskatchewan School District as at present. The poll was taken on whether

the Saskatchewan District should revert back to the three local districts of which it was comprised: Saskatchewan School District, St. Claire District and Paradise-Notre Dame district.

Total vote showed 90 in favor of retaining Saskatchewan School District as is, to 33 in favor of reverting back to the three original districts. Breakdown of figures shows: In the Saskatchewan district 25 voted in favor of retaining the present district and 23 voted to revert to the three districts. St. Clair district voted 14 for present district and 7 to revert to three districts and Paradise-Notre Dame voted 51 for present district and

3 to revert to three districts.

The meeting was called by the Sturgeon Divisional Board for the purpose of making a poll on the Saskatchewan school attendance area in response to petitions received from residents of Saskatchewan, St. Claire and Paradise-Notre Dame areas.

The Sturgeon School Board has designated Horse Hill as the school for the Saskatchewan attendance area.

Chairman George Wilson also announced this week that the Sturgeon School Board now has all teaching positions arranged for the coming year.

Morinville Council discusses lagoon

Council discussed the sewage lagoon problem at their July 23 meeting. It was suggested that Cell one be kept dry so that work may be done on it, in conjunction with work going forward on Cell three. A problem arises when Cell two overflows into Cell one. It was decided that council would meet with representatives of the Department of Health, Water Resources

and Manawash Drainage district to review the project. A motion carried that the performance bond of \$300, be released to Richard Cloutier as the clearance of Lots 7 and 8, Block 1 had been completed to the satisfaction of council.

Council was informed that grass was seeded at Heritage Lake and that a structure will be required to keep the fish in the lake when the

ditches are running.

Three building permits were approved at the meeting: M. Dhont, dwelling on Lot 13, Block 6, Plan 2968 NY (Beaver Lumber); R. LaPointe, dwelling on Lot 25, Block 3A, Plan 4366 MC (Beaver Lumber); A. Found, back porch and patio on Lot 21, Block 2, Plan 7731R (R. Lavole).

Holiday pay account was approved for C. R. A. Du-bord and the current accounts were closed and approved for payment.

The meeting adjourned at 11 p.m.

All over the Map

MAN-MADE HURRICANE

A turbo-blast blower generates its own winds, up to 180 mph clearing a path up to 15 ft. wide and depositing trash or leaves in a long winnow or in a handy pile on the market. The Financial Post reports, Designed in the U.S., the blower is suitable for use in parks, playgrounds, construction sites, parking lots. This man-made hurricane was designed to clean up man-made mess in public places.

HEAD COOLER

A special new portable shower on his helmet protects a fireman from searing heat. The Financial Post reports, The spray nozzle is fed from a backpack tank or a hose from the pump truck.

More than 50 district farmers were on hand Tuesday morning for the Deep Flowing demonstrations held at the farm of Frank Ozipko north east of Legal. The technique is useful in areas where the soil contains certain salt contents. For more pictures and details watch for the Half-Acre page in next week's Gazette when editor Don England will describe what is being done in this area of research.

Sturgeon board studies building program

Chairman George Wilson reported to the July 5th meeting of the Sturgeon School Board on a public meeting called by the divisional board on July 2nd at the Saskatchewan School. Copies of petitions received

from residents of the Saskatchewan R.C.P. and the St. Claire School district and Paradise R.C. school district were distributed later in the meeting to all trustees. The petitions requested the Sturgeon Division to hold a vote on school attendance areas under the provisions of the school act. A letter was sent to Saskatchewan R.C.P. No. 2 advising that a poll will be held.

In reviewing the meeting held at Saskatchewan School of July 2, the board was of the opinion that the articles in the Edmonton Journal on July 3 and July 4 gave a very unfair picture of what transpired at the meeting. The board deplors the inaccuracies of statements made in the press and regrets that the reporter did not check with the board or its officials on the authenticity of the information supplied to him.

Mr. McDonnell and Mrs. Hols were appointed to represent the divisional board at future joint meetings of the Thibault, Legal and Sturgeon jurisdictions to further explore the possibility of establishing a regional high school for the area.

BUILDING PROGRAM

The secretary was instructed to forward a letter to the school buildings board requesting: (1) early allocation of additional funds for completion of the Camilla project, (2) urgent need for funds early in 1969 to at least enable the Sturgeon Board to get started on the Horse Hill and Namaso building projects, (3) consideration of allocation of funds for the proposed school building addition at Bon Accord and the proposed new school unit at St. Albert.

Instructions were given to have Mr. McGee of Dick's Plumbing firm proceed with: (1) installing new heater coils in the units in the Cunningham gym, (2) converting the furnaces at Namaso to natural gas, (3) alterations to the roof drain

at Horse Hill School, (4) rectifying the water fountain on the upper floor of the Gibbons School.

At 3:30 p.m. Messrs. Morley Workun, John Chomak and Mr. Reg Jarvis came before the meeting with sealed tenders on the Camilla School building project. Eight tenders were received.

It was moved that Forest Construction Ltd. tender in the amount of \$370,884, for the addition and renovations to the Camilla School at Riviere Qui Barre be accepted, this being the lowest bid.

Mr. Workun was given some information on the proposed school addition at Bon Accord and was asked to proceed with preliminary sketch plans.

CAMILLA SITE

(1) Mr. McDonnell reported that he had negotiated the purchase of 1 1/2 lots from Roy McLellan and the purchase of three lots from Mrs. Daisy McLellan to the north of the existing site of Camilla School. He stated that he also negotiated the acquisition of 1 lot to the south of existing site.

The action taken by Mr. McDonnell, on behalf of the board, in obtaining the required land in the name of the board was approved.

(2) Mr. McDonnell reported that he had contacted Schumacher's Moving and Construction regarding the moving of 2 portables at Camilla and 1 from Alcomdale to Camilla. Mr. Schu-

Morinville lessons

Parents who are interested in Music lessons and/or Dancing lessons for their children are asked to get in touch with the Morinville Recreation Board as soon as possible. Please telephone 256-3532.

Cadet leader Sergeant Ronald Maine, 17, son of Mr. and Mrs. Roy Maine, R.R. 8, Edmonton practices precision drill movements on his fellow students during the 18th annual six week Aid Cadet senior leaders course at Canadian Forces Base Borden, Ont., the nation's largest military training centre. Among the other subjects he is learning are effective speaking, leadership, and instructional techniques. Selected from 28,000 Air Cadets of 365 squadrons across Canada, he will return to his home squadron to pass on the knowledge he has gained during his summer with the Canadian Armed Forces. Canadian Forces Photo.

Chateau Sturgeon couple celebrate Golden Wedding

MR. AND MRS. ALBERT POULIOT

Mr. and Mrs. Albert Pouliot are back from a trip to St. Louis and Delden, Saskatchewan where they celebrated their golden wedding anniversary on July 10th. Mr. and Mrs. Pouliot have 14 children living, 80 grandchildren and 20 great grandchildren. All the children were present with most of their families.

Celebrations started at 3 p.m. with a mass in honor of the jubilarians sung by their son Father Gerald Pouliot of St. Louis, Sask. Present were the bride-maid and best man who attended the couple fifty years ago, Mrs. Leontine Blais and Mr. Pierre Pouliot.

At 6 p.m., a delicious banquet was served for some 200 guests. The wedding table was centred with a beautiful cake made in the form of an open book, with the marriage certificate written on it as well as the

names of all the children. There were also two little angels to represent the two children who died when babies. The papal benediction was presented by Father Pouliot who also was M.C. for the occasion.

Two addresses were read, one in the name of the Chateau Sturgeon staff. They were also presented with two souvenir albums and numerous gifts including a purse.

At 9 p.m., a program was presented by all members of the family and some of the nephews in the hall which had been beautifully decorated for the occasion. This was followed by dancing and a delicious lunch for some 400 relatives and friends, from British Columbia, Alberta, Manitoba, Quebec and Saskatchewan.

Legal Locals

Doctor Dumaine will not be at his office until the 28th of August.

Those interested in sending their children to play-school this fall, please contact Mrs. Germaine Nault before August 31st.

Norman Cyr accompanied by his wife, Lucien Larose, Laurent Columbe, Raymond St. Martin, Robert Letourneau and Claude Cyr left by automobile Saturday for Nelson, B.C., to attend the Hockey Clinic.

Cheryl Georget boarded the C.N.R. train last Thursday to attend classes for three weeks at the Orford Jeunesse Musicales Chorolette Centre located in the Eastern townships of the Province of Quebec. Only eight were chosen to attend these special singing classes and Cheryl was one of the fortunate ones. She also plans to visit Man and his World in Montreal before returning to take up her classes at the university.

Mr. Maurice Lessard is a patient in the Westlock hospital after suffering burns.

Denise Brisson infant daughter of Mr. and Mrs. Leon Brisson is back home recovering after spending a week in the hospital.

A large number of friends and relatives gathered at the community centre Saturday evening for a shower in honor of Jean-Louis Tiesle who will be married next Saturday to Madeleine Sabourin from Vimy.

CHOP SUEY ANYONE?
Terry Legarrier operator of the Legal Corner Cafe invites you all to come and enjoy a Chop Suey Saturday and Sunday served from 12 noon to 11:30 p.m.

The library committee invite you to come and choose yourself a book from the new 300 volumes that have been placed on the shelves for your reading pleasure. There is a variety of books to choose from and whether your two or ninety-two rest assured there is a book for you.

Congratulations to Jean Louis Pare who exchanged marriage vows with Grace Marie Benson at Vegeville on Saturday, August 10th.

Vimy Column

Mr. and Mrs. Edward Proulx from Calgary accompanied by Mrs. Proulx's cousin Miss E. Brown from Manchester, England, were recent visitors at the home of Mr. and Mrs. Leon Huot.

Presently holidaying at the home of Mr. and Mrs. Lucien Huot are Mrs. Huot's parents, Mr. and Mrs. Severe Champagne from Quebec and their son, Brother Clermont Champagne from Montreal.

Mr. and Mrs. Lucien Huot accompanied by their relatives from Quebec spent a week at Banff and Jasper.

Sympathies of the district are extended to Mr. and Mrs. Albert Blanchette upon the recent loss of Mrs. Blanchette's father, Mr. Noe Boesse from St. Paul.

Miss Colette Stack spent a week at her grandparents' home, Mr. and Mrs. Frank Landry.

WESTERN FIRST
A \$2-million textile mill, said to be the first of its kind in western Canada, will be producing and finishing knit fabrics for the garment industry by the end of the year in Selkirk, Manitoba. The completely integrated plant, occupying almost nine acres at a Selkirk industrial park, is being established by Electro-Knit Fabrics (Canada) Ltd., Montreal. It not only will produce single knit, double knit and pile fabrics, but will dye and finish them as well.

PROVINCE OF ALBERTA

Legislative Committee

A Committee of the Legislature has been established to examine and review matters relating to:

- reports of Royal Commissions and other legislative bodies with respect to automobile insurance;
- current and long range safe highway design policies;
- compulsory vehicle inspection programs;
- driver education, particularly in our high schools;
- penalties provided in Federal and Provincial law, particularly with respect to the use of alcohol and drugs while driving;
- the whole concept of driver licensing and driver control including a study of computerizing driver records in order that Alberta will have the best possible method of driver control;

and to report to the next Session of the Assembly.

Written Submissions are invited from interested persons and organizations. Ten copies of formal submissions must be submitted to the undersigned prior to September 30, 1968.

Gordon E. Taylor, Chairman
Legislative Study Committee
Highways Building
Edmonton, Alberta.

THE GAZETTE

Vimy 4-H hold banquet

The annual Vimy 4-H-banquet was held recently in the community hall. A delicious supper was served by the members mothers, Mr. Bob Dubois, master of ceremonies, led with the 4-H pledge. Miss Jeanne St. Arnaud proposed a toast to the queen and Mr. Vern Gih presented gifts to the club members on behalf of the members. He also proposed a toast to the leaders which was answered by Mr. Paul St. Arnaud and Mr. Ed Sabourin. Miss Lorraine Sabourin proposed a toast to the parents which was answered

by Mrs. J. Kallal. Miss Lorraine Parrent introduced the guests and club leaders. Representing Echo Hill were Mr. and Mrs. Robert Burns, Mr. and Mrs. Kallal for Fawcett, Mr. and Mrs. F. Fuchs for Golden Sunset and Mr. and Mrs. Tom James for Springfield.

Introduction of the club members by David Kallal was followed by the presentation of trophies. Champion trophy donated by the Vimy Business Men was won by Maurice Parrent. Reserve champion trophy donated by Mike's Garage went to Paul Dubois. Showmanship trophy donated by Crose Transport was awarded to Maurice Parrent who also won the Grooming trophy donated by Mr. Paul Sabourin. Best first year trophy donated by Huot Bros. went to David Kallal. Lynda

Kaiser won the Best Records donated by Vimy Hotel Ltd. Mike Borduzak was awarded Best PeeWee trophy donated by Edgar Drugs. PeeWee championship donated by Mr. Harry Stelger and also PeeWee Grooming donated by Pelletier's Esso Service. Ms. Dale Cassidy gave a short speech which was followed by presentation of gifts to the PeeWee who had not received a trophy. Mr. Kaiser announced the winner of the Most Devoted Member, Mr. Paul Dubois. Mrs. A. Parrent presented him with the trophy which was donated by the Parrent family. Guest speaker, Mr. Edgar terminated the event with words of encouragement to all. The 4-H members wish to thank all those who have made this year's activities so interesting and educational.

NAMAO NEWS

A wedding dance will be held in the Namao Community Hall on August 17th in honor of Mr. and Mrs. Robert McIay whose marriage took place in Calgary on July 27. Mr. McIay is the former Gail Pearce of Spalding, Saskatchewan.

A U.C.W. meeting was held at the home of Mrs. Bud Horricks with approximately 30 persons present. A Japanese lady and her daughter were present to show the group some Japanese floral arrangements. Final plans for the flower show to be held August 14 were made.

Get well wishes are extended to Mr. Dave Crozier who is back in hospital.

Les Crozier and Bill Akerman have left for Nelson, B.C., where they will attend a two week hockey school.

'On Safety'

Stop all machinery and shut off all engines when repairing and refueling. Allow to cool before refueling.

Get off only after tractor stops. Allow it to be in motion only when a driver is at the controls.

If you cannot avoid driving on the highway, use the lighting and marking required by your state vehicle code.

DENNIS GLASGOW

Continuation of a series showing the results of analysis of fatal farm accidents based on a comprehensive study of actual cases:

In 40 per cent of the fatalities no vehicle or equipment other than the tractor was involved. Another tractor, farm implement or farm vehicle was involved in 36 per cent of the cases, automobile in 16, trucks in 7 and trains or buses in 1 per cent.

MOTION AND SPEED

One-third of the tractors were not in motion at the

time of accident (such accidents might be fire during refueling, rotating PTO shaft when stopped in field, or during stationary operations, fall from tractor, motor vehicle collision when tractor was stopped on roadway etc.) Of the others, two thirds were in forward motion and the other third in backward motion.

HOUR OF DAY

More than half the fatal accidents occurred between noon and 6:00 p.m. One-third took place between 6 a.m. and noon, and 10 per cent occurred between 6 pm and midnight. Two per cent happened between midnight and 6 a.m. Only 5 per cent of all cases occurred after dark.

MONTH

Fatalities occurred most frequently in May (13 per cent of total) followed closely by September, October and June. Fewest fatalities were in January (2 per cent) and February and December (5 per cent each).

INJURY TYPE

Nearly nine out of ten injuries involved crushing, fractures or multiple injuries. Of the other types of injuries, four per cent of the victims suffocated, three per cent drowned, and one

One quarter of Canada's cattle were in brucellosis-free areas on April 1, 1968 the remainder being in certified areas where the disease has been virtually eliminated.

macher will be at the site Thursday to look locations over and give a quotation.

BON ACCORD DELEGATION

Mrs. Jean Chubb, Messrs. R. Crozier, S. Kowalski, T. Wilkins and Brennan attended the meeting at the invitation of the board. Mr. McDonnell informed Mrs. Chubb and her group that the board had studied the brief submitted to them. In reply to the Bon Accord community's complaint that nothing was done, Mr. McDonnell read a letter addressed to the Department of Education, dated January 24 1968, advising the department of the board's intention to prepare a statement of need for the Bon Accord school. In addition to the preparation of the state-

ment of need which the secretary treasurer has been working on, Mr. McDonnell elaborated on the program of renovations and maintenance for the current summer. These included renovation of the elementary school, painting of classrooms, sanding, sealing and finishing of floors, present staffroom will revert back to science room, some carpeting in elementary library will be added in the junior senior high school wing, the old library will be converted into the administration centre with three offices, present administration centre will be changed into a staff and workroom for teachers, the typing room will be partitioned creating two teaching stations rather than the one at present.

Mr. Kunst explained some of the innumerable steps that have to be taken before any construction or final plans can be materialized. Considerable discussion followed on the pros and cons of removing the high school students to the city schools. Mr. McDonnell advised Mrs. Chubb that it was still the

intention of the board to transfer the high school students to the LaZerte High School in Edmonton when it is finished.

ROAD CLOSING, CAMILLA

The Board will apply to the Council of the Municipal District of Sturgeon, (1) to have the lane between Lots 5 to 10 inclusive and Lots 11 to 16 inclusive, Plan 77702 Riviere Qui Barre closed, (2) to have lots 4 to 15 inclusive, plus the lane, incorporated into one - Title upon the acquisition of Lot 4; the North half of Lot 9; Lot 10; Lot 11, 12 and 13. Mr. Krauskopf advised the Board that he had submitted two resolutions pertaining to (1) power and pipeline assessment (2) distinctive yellow color being reserved for school buses only, to the A.S.T.A., for submission to the Annual Convention.
